4's Enrichment Spotlight

This year, First Presbyterian Preschool launched 4's Enrichment, an experiential learning class. 4's Enrichment supplements our 4's curriculum. Taught by Miss Elizabeth, the class takes place on Thursdays 12:45 – 2:30.

The goal of this program is the enhance kindergarten readiness through experiential leaning. 4's Enrichment complements our current curriculum with four field based units of study: Farm to Table, The Arts, Outdoor Exploration, and Our Community. First Presbyterian Preschool collaborates with local artists, businesses, parks and museums to design educational field trips.

We realized from our own experiences, and through inquiries from the greater Holland area, that parents were looking for another option for their preschoolers. Families wanted the opportunity to send their 4-year olds to preschool four half days a week, instead of just three. They longed for a play based curriculum that explored the arts, our community and nature in a more experiential way. Thus, we developed a program that does just that.

4's Enrichment meets and departs from a designated field location each week. Parents transport their children to and from the venue. Places we have been to so far this year include Degraaf Nature Center, Post Family Farm, Hemlock Crossing, Outdoor Discovery Center, 8th Day Farm, The Holland Farmers' Market, Family Fare, The Good Earth, Peachwave, music at Christ Memorial Church and the Holland Arts Council.

If you are interested in enrolling in 4's Enrichment for the 2016-2017 school year, select that option on your enrollment form and add $50 to your deposit. The student must also enroll in our M/W/F class. The tuition for 4's Enrichment is $400 for co-op/$530 non co-op. Tuition assistance is available. Please email our membership coordinator, Lise Zinck for more info: fppreschoolholland@gmail.
